Why is Phillips' Colon Health an Excellent Choice?

The Only Leading Probiotic with 3 Clinically Tested Strains To:*

- ✓ Help Defend Against Occasional Digestive Upsets
- ✓ Support Digestive Health & Immunity
- ✓ Support Nutrient Absorption & Lactose Digestion

What are Probiotics & How Can They Help?

Probiotics are live microorganisms that naturally occur in your body. They normally live in the digestive tract and have played a role in your body's healthy immune system since you were born.

When taken on a daily basis, probiotics support the digestive system and help restore the balance that is so important to good health. When there is an imbalance, diarrhea, constipation, and gas can result. Scientific evidence shows that probiotic species like Lactobacillus and Bifidobacterium help relieve occasional constipation, diarrhea, and gas.^{1,2}
