MEASLES FACTS

**Vitamin A
and other treatments
are not substitutes
for the vaccine.**

The best way to protect yourself and your family is to get vaccinated.

Born before 1957?

You were likely naturally infected and are presumed to have protection against measles, mumps and rubella.

**You do not
need a
booster**

if you received two doses of the MMR vaccine.

There is no antiviral treatment for measles.

**The best
protection
is vaccination.**

**The vaccine is safe
and effective.**

How effective?

**97% effective
after 2 doses.**

It takes about 2 weeks after receiving the vaccine to build this immunity.

**If you can't
remember
being
vaccinated,
you can protect
yourself with
vaccination
now.**

Those born before 1957 do not generally need to be vaccinated.
